Abstract. We present an existence result for first order dynamic inclusions on time scales with a periodic boundary value condition, assuming the existence of a solution tube for the considered inclusion and the Henstock integrability of the multifunction on the right-hand side.
Key Words and Phrases: dynamic inclusion, solution tube, Henstock integral.
2010 Mathematics Subject Classification: 34N05, 34A60, 26A39, 47H10.
