E-mail: bodo@math.ubbcluj.ro

**Abstract.** We apply the Banach Contraction Principle in order to obtain some information about fixed points of some maps defined on abelian groups.

**Key Words and Phrases:**  $U$ -contraction, fixed point, abelian group.

**2010 Mathematics Subject Classification:** 20K99, 20M15, 47H10, 54H25.
